

EMULOIL SG3

Fatliquoring product composed by a mix of animal triglycerides and sulphated and sulphide oils

CHARACTERISTIC	SPECIFICATIONS	UNIT OF MEASURE
Appearance	Yellow paste	
pH (1:10)	7 +/- 1	
Active substance	70 +/- 3	%
Charge	Anionic	
Water solubility	Soluble	

EMULOIL SG3 is part of our “blend” gamma called **SG** purposely studied for the fatliquoring pure vegetable tanned leather.

The characteristics of this type of fatliquor are those to give the treated leathers natural softness together with an exceptional fullness as well as a brightening effect of the grain of the crust achieved by no other fatliquor.

EMULOIL SG3 is recommended as stand-alone fatliquor in a 45°C bath with a percentage that varies from 8% to 12% depending on the thickness and size of the leathers.

EXAMPLE

6-7% for bovine shoulders and avancorpi (2.2-3mm)

7-8% for veal or calf

The percentage of water suggested for this type of fatliquoring is approximately 30-50% calculated on shaved weigh. Rotation time about 60'.

Storage: 6 – 12 months. Keep the product in intact, well closed original packaging, in cool and dry place, away from heat sources. Shake always before use. Close the container tightly after use.
