

## FILTAN MP/LF

Copolymer

**COMPOSTION**

Copolymer

**APPEARANCE**

Cream-coloured powder

**pH VALUE (1:10)**

6,5 +/- 1,0

**ACTIVE SUBSTANCE**

95%

FILTAN MP/LF is a copolymer free formaldehyde that is used to fill the empty parts of the collagen structure and to make them more homogeneous. The product is compatible with vegetable and synthetic agents.

It has an extremely light-fast; we suggest to use it at pH over 4.

The product improves buffability and is recommended on leathers for nubuck and suede.

**APPLICATION**

The recommended ercentage of use is from 3% to 6% on all types of leather, depending on desired fullness and firmness.

Storage: 6 – 12 months. Keep the product in intact, well closed original packaging, in cool and dry place, away from heat sources.
