

GREIBOSOL GBAX

For clothing, nappa & very soft furniture leathers

GREIBOSOL GBAX is a highly effective fatliquoring agent for clothing, upholstery and other types of Nappa leather.

Characteristics

Base:	Combination of synthetic and natural fatty substances
Appearance:	Viscous - brown
Concentration:	Approx. 50%
pH of a 10%-solution:	Approx. 7 - 8
Charge:	Anionic

Properties

Softness:	Outstanding softness, waxy handle
Light fastness:	very Good
Storage life:	Approx. 1 year 15 - 25 °C is the best storage temperature, not sensitive to frost but below 5°C it concentrates. After the influence of frost heat the product to room temperature and stir well.
Solubility:	Product should be diluted with water at 50°C before being added to the drum

GREIBOSOL GBAX gives an outstanding, even softness throughout the cross section of the leather with excellent filling.

Leathers treated with GREIBOSOL GBAX have a pleasant, warm, silky feel and can be buffed very well
