

GREIBOSOL SPA

Synthetic fatliquor - soft leathers with full round feel

GREIBOSOL SPA is the ideal combining fatliquoring agent for all types of leather . By adjusting the single components of the fatliquoring mixture every individual softness and surface effect can be achieved with this product.

Considerably improved is the levelness of the dying. The particle size of the emulsion is responsible for the results with GREIBOSOL SPA, this can be influenced by the method of diluting.

Characteristics

Base:	High molecular saturated hydrocarbons
Appearance:	Yellowish pourable paste
Concentration:	Approx. 64 %
Chemical treatment:	Sulphonated
pH of a 10 % solution:	8 - 10
Charge:	Anionic

Properties

Light fastness:	Excellent
Heat resistance:	Excellent
Storage life:	Up to 12 months Not sensitive against frost
Stability in	
- chrome tanning floats:	Good in mineral floats
