

SOSTENPEL LTF

Polyphosphate auxiliary

CHARACTERISTIC	SPECIFICATIONS	UNIT OF MEASURE
Appearance	Off white to ivory powder	
pH (1:10)	9,5 +/- 1,0	
Active substance	95 min.	%

SOTENPEL LTF is a multipurpose auxiliary offering:

- Solubilize and removes the dirt from raw hides and skins during soaking, 0.5-2.5%
- Improves the lime solubility during liming enhancing the fibers
- opening giving very clean and more elastic pelts, therefore reducing the lime offering thus creating less sludge to be treated in the effluent plant, 0.25-0.75%
- Improves the de-pickling operation by relaxing and opening the skins folds, controlling the swelling during neutralizing to have skins with more body avoiding looseness, 0.5-2.0%
- Perfect neutralizing action when used in re-tanning for nubuck, suede, patent leather and heavy shoe uppers promoting a very uniform pH throughout the cross section giving fibers with perfect presentation for the buffing operation, 1.0-3.5%

Storage: Up to 24 months if properly stored in own sealed packaging. Keep the product in intact, well closed original packaging, in cool and dry place, away from heat sources. Close the container tightly after use.
